

This pedigree for my grandfather, Oakley Vincent, was drawn by Maud McLure Kelly (1887-1973) who created it some years prior to death. Maud was an excellent researcher. Like all researchers she had to rely heavily on interviews, someone's memory, until Primary sources became available. So it was with Oakley's maternal grandmother, Lucinda, whose surname was recorded as "Thompson" in error. According to the best available research, her surname was Canady. ~Ron.V
